Order #17, ( </3-easyComplexityChallenges/uniqueElementsByKestutis.php> )

## Unique Elements

**Challenge Description:**

You are given a sorted list of numbers with duplicates. Print out the sorted list with duplicates removed.

**Input sample:**

File containing a list of sorted integers, comma delimited, one per line. e.g.

```
1,1,1,2,2,3,3,4,4
2,3,4,5,5
```

**Output sample:**

Print out the sorted list with duplicates removed, one per line  
e.g.

```
1,2,3,4
2,3,4,5
```

Submit your solution in a file (**some file name**).py2| c| cpp| java| rb| pl| php| tcl| clj| js| scala| cs| m| py3| hs| go|
